STUDENT INDUCTION PROGRAM - 2021-22

Student induction programme 2021-2022

Deeksharambh- Student Induction Programme (SIP)

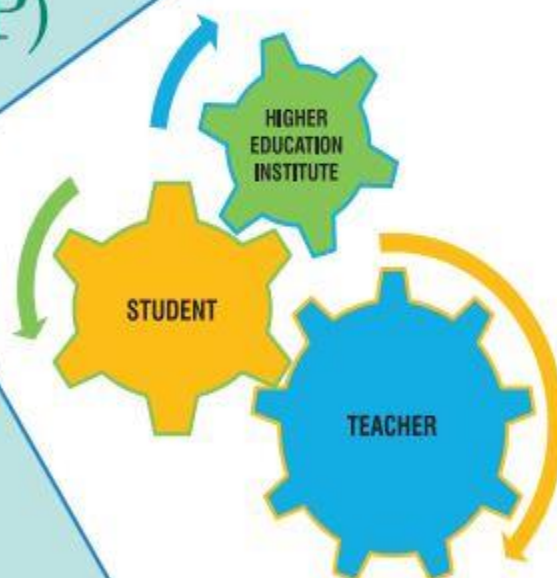

SAGE

Socializing

Associating

Governing

Experiencing

Introduction

The Student Induction Program should be designed for the new students to help them feel comfortable, draw their attention towards exploring their academic interests and activities, reducing competition and making them work for excellence, promote bonding within them, build relations between teachers and students.

The Higher Education Institutions play an important role in the development of individuals, family and society, and thereby lay foundation of a strong nation by helping individual acquire knowledge of all fields, inculcate sense of responsibility and channelize their inner potential.

'Deeksharambh - Student Induction Programme', useful for students to adapt with the new surroundings, develop bond with fellow students and teachers, sensitivity towards various issues of social relevance and imbibe human values in them so as to become the responsible citizens. Introduction of a well-designed Student Induction Programme (SIP) will help both teachers and students for setting the pace of fruitful teaching-learning experiences.

Students Induction could cover a number of different aspects (SAGE):-

Socializing: meeting other new students, senior students, students' union, and lectures by Eminent People.

Associating: visits to University College, visits to Dept./Branch/ Programme of study and important places in campus, local area, city and so on.

Governing: rules and regulations, student support etc.

Experiencing: Subject lectures, study skills, small-group activities, physical activity, creative and performing arts, literary activities, universal human values, etc.

Mentoring :

Mentoring and connecting with faculty members is the most important part of induction. Hopefully it would set up a healthy relationship between the students and the faculty. In our college the ratio of mentor and mentees is 1: 25 to 30.

Mentoring takes place in the context and setting of universal human values. It gets the student to explore oneself and allows one to experience the joy of learning, stand up to peer pressure, take decisions with courage, be aware of relationships, be sensitive to others, understand the role of money in life, and feeling of prosperity, etc. Human values enshrined in our constitution like justice, liberty, equality, fraternity, human dignity and the unity and integrity of the Nation can also be part of this discussion. Focus should be on inculcating values of equality and responsibility towards one's fellow citizens of any caste, class or creed. During discussion issues and requirements of SC/ST/OBC students should be assessed and addressed. Mentor-mentee relationship can help students form a bond with faculty members which can be of great help during various tough times in study courses.

Methodology of mentoring this content is extremely important. It must not be through do's and don'ts, but by getting students to explore and think by engaging them in a dialogue. It is best taught through group discussions and real-life activities rather than lecturing. The role of group discussions, however, with clarity of thought of the teachers cannot be over emphasized. It is essential for giving exposure, guiding thoughts, and realizing values. The teachers must come from all the departments rather than from only one department or from outside of the Institute.

Follow up:

Mentee should meet their mentor weekly once after the induction is over, this will help in building relationship among student and faculty. The follow up should maintain in subsequent semesters also.

Partners in induction:

- All the students
- Teaching staff
- Non-teaching staff
- Alumni

Student induction programme committee:

1. Principal
2. Coordinator
3. IQAC coordinator
4. Controller of examinations
5. Lecturer in library science
6. Physical director
7. Department I/Cs
8. Non-teaching staff (scholarship)

Expected outcomes of the programme :

- Access the facilities available in Campus on their own
- Know their programme structure
- Know details of semester pattern, examination and evaluation procedures
- Identify their talents to pursue the rest of the programme
- Know the various committees and their activities which can be useful for their necessities
- Know how to access the library / digital library for enrichment of their knowledge

Programme schedule:

Day	Session	Activity
01-12-2021	I	Inaugural Session
	II	Institution Orientation & Department orientation
