International Phonetic Alphabet contains 20 Vowels and 24 Consonants.

- Out of 20 Vowels, 12 Monophthongs, 8 Diphthongs.
- Monophthong means there is one Vowel sound in a Syllable. Ex: e (2)
- Diphthong means there are two Vowel sounds in a Syllable. Ex: ei (2022)
- Remember that in English Alphabet, we call them as letters. In Phonetics, we call them as Sounds.
- There are totally 44 sounds present in IPA.

A woman in a black and white patterned sari stands at the front of a classroom, presenting to an audience. Behind her is a large projector screen displaying a Windows desktop environment. The desktop has several icons, and a window titled 'SMT-SP' is open, showing a grid of images. The room is filled with people seated at desks, facing the presenter. The overall scene is a professional presentation or training session.

1. You are driving down the road in your car on a wild, stormy night, when you pass by a bus stop and you see three people waiting for the bus.

- An old lady who looks as if she is about to die.
- An old friend who once saved your life.
- The perfect partner you have been dreaming about.
